Dear Mr. Madden:

This is to acknowledge receipt of your email to our PSC Website Comments.

I am forwarding your email to our Docketing Department for handling. Your email will become a part of Docket No. 2008-196-E and will be posted on our website under this Docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling

**Subject:** PSC Website Comments:SCE&G Rate Increase Requests

It seems like the SCE&G has become or wants to become running mates with the oil execs. They want better than a 35% increase for Nuclear Power Construction. I do believe that more than 50% net electricity generated in South Carolina is by Nuclear Power. I always thought that Electricity by Nuclear Power was to be cheaper to the customers. Now they're after increases because of coal. I think someone needs to really look into the SCE&G to see where all the money goes. My Bill increases every year and I really think it's time to put a stop to it. My wife and I are retired living on limited income. My Navy retirement doesn't amount to living in luxury and my Social Security doesn't pay the bills either. Maybe the whole state should be opened up and we the people be given the choice of who we want to supply our power. PLEASE>>> Vote NO to the SCE&G.

Respectfully,

Loren H. Madden, USN Ret.
